SUITCASE GAUCHO is our lightest model and breaks down into the smallest package. Recommended primarily for street riding, the Gaucho carries two people, although it is intended for one. Features a 2-cycle, rotary-valve engine with automatic oil injection.

Top speed 55 mph
 Acceleration fair
 Fuel capacity 1.3 gals
 Non-stop range 170 miles
 Engine power 5 hp
 Transmission 5 speeds
 Disassembled weight
 Main section 87 lbs
 Remaining 6 components.. 68 lbs
 Total weight 155 lbs
 Main section dimensions... 35"l x 13"w x 21"h
 Price \$539

SUITCASE HONCHO is designed primarily for street riding but can climb a 35° incline. It carries two people comfortably and is an excellent general-purpose motorcycle. Features a 2-cycle, rotary-valve engine with automatic oil injection.

Top speed 65 mph
 Acceleration very good
 Fuel capacity 1.6 gals
 Non-stop range 175 miles
 Engine power 11 hp
 Transmission 5 speeds
 Disassembled weight
 Main section 102 lbs
 Remaining 6 components.. 91 lbs
 Total weight 193 lbs
 Main section dimensions... 36"l x 13"w x 22"h
 Price \$659

SUITCASE TRAIL 90 is uniquely suited for trail riding and has swivel handlebars to facilitate stowing. Its step-through frame and automatic clutch make it ideal for women. Features a 4-cycle engine.

Top speed 55 mph
 Acceleration good
 Fuel capacity 1.6 gals
 Non-stop range 160 miles
 Engine power 7 hp
 Transmission 8 speeds
 Disassembled weight
 Main section 115 lbs
 Remaining 5 components.. 85 lbs
 Total weight 200 lbs
 Main section dimensions... 37½"l x 13"w x 22"h
 Price \$639

SUITCASE CYCLE offers a complete line of Suitcase Cycles. There's one for every pilot and every need. All Suitcase Cycles meet the licensing requirements of every state and are designed to operate as efficiently on aviation fuel as on automobile fuel. They are all

two-place motorcycles and each is equipped with two independent brake systems, rear-view mirror, key-operated ignition and steering column lock, and a 6-volt electrical system that includes a headlight, tail light, brake light and horn. In addition, each pur-

chaser of a Suitcase Cycle receives a free tool kit, owner's and operating manuals, and a complete set of explicit, illustrated assembly and disassembly instructions. Also included with each purchase is a lightweight loading tray made of rugged thermoplastic.

SUITCASE GAUCHO XL is essentially a more powerful version of the Gaucho and has better acceleration and improved trail-riding capability. Large tires. Features a 2-cycle, rotary-valve engine with automatic oil injection.

Top speed 60 mph
 Acceleration good
 Fuel capacity 1.3 gals
 Non-stop range 150 miles
 Engine power 7 hp
 Transmission 5 speeds
 Disassembled weight
 Main section 89 lbs
 Remaining 6 components.. 68 lbs
 Total weight 157 lbs
 Main section dimensions... 35"l x 13"w x 21"h
 Price \$629

SUITCASE BLAZER is essentially a Honcho with added gears and knobby-treaded tires that make it ideal for driving across and over virtually all types of terrain. Features a 2-cycle, rotary-valve engine with automatic oil injection.

Top speed 65 mph
 Acceleration very good
 Fuel capacity 1.6 gals
 Non-stop range 160 miles
 Engine power 11 hp
 Transmission 8 speeds
 Disassembled weight
 Main section 104 lbs
 Remaining 6 components.. 91 lbs
 Total weight 195 lbs
 Main section dimensions... 36"l x 13"w x 22"h
 Price \$669

SUITCASE SIERRA is powerful, for those who take their motorcycling seriously. Combines excellent all-terrain and range, freeway-type driving capabilities. Features a 2-cycle, rotary-valve engine with automatic oil injection and a space-age, electronic, pointless ignition system.

Top speed 75 mps
 Acceleration excellent
 Fuel capacity 1.8 gals
 Non-stop range 130 miles
 Engine power 17½ hp
 Transmission 5 speeds
 Disassembled weight
 Main section 120 lbs
 Remaining 5 components.. 95 lbs
 Total weight 215 lbs
 Main section dimensions... 37½"l x 14"w x 23"h
 Price \$899

Equipped with wheels like a dolly, the loading tray allows a pilot to effortlessly move the main and heaviest section of his disassembled Suitcase Cycle. The loading tray also protects the floor of the baggage compartment or cabin from damage by protruding

parts of the stowed main section. Finally, each Suitcase Cycle is accompanied by a unique vinyl pouch into which the small fuel tank is stored during flight, preventing fuel vapor from escaping into the aircraft cabin. Suitcase Cycle's home office, factory and

showroom is located on the Santa Monica Municipal Airport in Southern California. Visitors are welcome.
